

STAYING CYBERSMART ONLINE

SHOPPING ONLINE

TRUST IN EVERY LAYER

SHOPPING ONLINE PREVENTION IS THE FIRST LAYER OF PROTECTION

With the increase in online shopping there's also been an increase in online theft via fake online stores, auction sites and/or payment channels.

HOW CAN YOU BE SAFER SHOPPING ONLINE?

- Look for the https:// and padlock symbol in your browser to determine whether the site is secure
- Check reviews on the online store to confirm it is legitimate
- Avoid payment via money transfers and direct bank deposits by opting for more secure payment channels such as PayPal or BPay
- Never send your bank or credit card details via email, SMS or social media
- Make sure the computer or mobile device you use for online shopping has the latest security software updates
