- There is a change in law or its application, a change in relevant industry code, an AFCA determination, a court decision, or ASIC or other regulatory guidance or action (including APRA requirements) that materially affects the product. For example, if a change in the law requires ANZ to change or remove a key product attribute or a product intervention order is made by ASIC in respect of the product.

- ANZ has information about:
  - the way in which the product is being distributed, operating or being used by customers that reasonably suggests the TMD is no longer appropriate; or
  - the way in which an Approved Platform (including its authorised third parties) is operating, so far as it relates to the product, that reasonably suggests the TMD is no longer appropriate.For example, ANZ will monitor the number of accounts that are closed prior to maturity, particularly if this occurs shortly after the product is issued.
