PAYNOW PAYMENT – POSSIBLE NEGATIVE SCENARIOS

Negative scenarios / error message

When an incorrect Alias Reference is input, error message will be displayed

The screenshot displays the ANZ Transactive 'Instrument Edit' interface. A modal window titled 'Beneficiary Account Lookup' is open, showing an error message: 'Error: 801-Proxy is not registered on CAS'. The modal also contains a 'Pay To' field with a dropdown menu set to 'UEN' and a text input field containing '123456789'. Below the modal, the 'Beneficiary Details' section is visible, with fields for Beneficiary Name, Beneficiary Address, Beneficiary City, Beneficiary Country or Region, and Beneficiary Type. The background interface shows the 'Instrument' details, including 'Payment Currency: SIN', 'Beneficiary Alias', 'Payment Product: PA', 'Client Reference: 123', 'Record Reference', and 'Debit Account: 164'. A 'More Details' button is located below the Beneficiary Details section. The top navigation bar includes 'Admin', 'Collections', and 'Payments' tabs, along with user information 'Welcome VARUN GUNTY' and 'Logout'.
