1. WHO WE ARE AND HOW WE OPERATE

Founded in 1835 and headquartered in Melbourne Australia, ANZ has a proud heritage of more than 180 years providing banking and financial products and services to individual and businesses customers. We operate in and across 34 markets, spanning Australia, New Zealand, Asia, Pacific, Europe, America and Middle East.

ANZ is one of the 5 largest listed companies in Australia and number one bank in New Zealand with total assets of AUD 942.6 billion as of 30 September 2018.

ANZ in Thailand

ANZ has a long history in Thailand having opened a Representative Office in Bangkok in 1986. In May 2014, ANZ was one of the two banks who received approval from the Ministry of Finance to apply, through the Bank of Thailand, for a license to operate a subsidiary bank. On 15 June 2015, a license to operate a subsidiary bank was granted to **ANZ Bank (Thai) Public Company Limited** by the Ministry of Finance. It is owned by ANZ Group.

ANZ Bank (Thai) Pcl. began its first day of operation on 29 June 2015 serving banking needs to corporate and institutional clients from a single office in Bangkok with a total of 42 staff (as at end September 2018)

Results of Operations

2018 marks the third full year of operation for ANZ Bank (Thai). We continue to make good progress on building and strengthening customer portfolio. Client acquisition was largely targeted at MNC supporting network connectivity whilst Large Corporate was focused on deep dive with existing relationship. With the greater connectivity and multi-level approach on relationships we have witnessed relationship further deepening and improved quality of revenue. Significant effort was achieved in driving simplification and efficiencies whilst adhering to local regulatory requirements. This allows us to continue focusing on portfolio growth whilst maintaining a well-managed portfolio.

We remain compliant with all key risk metrics. Operations and system capabilities, including BCP Tests have been fully launched and implemented with satisfactory outcome.

In 2018 ANZ Thai received inaugural rating of "AAA/Stable" from TRIS (a strategic partner with S&P Global Ratings). The strong rating reflects ANZ Thai's strategic subsidiary of ANZ Group as well as strong stand-alone credit profile (strong capital, good asset quality and ample liquidity). The rating enables additional opportunities across FIG and Corporates

On the financial front, the bank delivered revenue of THB 595 million and incurred expenses of THB 472 million. Net Profit After Tax (NPAT) at year end stood at THB 170 million.

Financial Highlights for the year ended 30 September, 2018

	Units in THB'Mil
Loan to Customers	14,428
Revenue	595
Expense	472
Profit from Operation	210
Net Profit	170
Total Comprehensive income	148
Capital Adequacy Ratio	102.3%

Dividend pay-out policy:

In accordance with the Public Company Act, no dividend shall be paid out of funds other than profit. In the case where the company still sustain an accumulated loss, no dividend shall be paid. As at 30 September, 2018, ANZ Bank (Thai) still has deficit carried forward, hence no dividend will be made. Consideration on Dividend pay-out policy shall be made at an appropriate time.

3. RELATED PARTIES TRANSACTIONS

Loans and obligations to/from major shareholders and related parties with potential conflict of interest (as at 30 September 2018) are disclosed fully in detail under the Independent Auditor's Report, Notes to Financial Statements no. 23 attached to this report.

4. CORPORATE GOVERNANCE

4.1 Board Committees

4.1.1 Board of Directors

The Board of Directors is responsible to shareholders for the governance of the Bank, defining the strategy, ensuring effective control and overseeing its operations and financial performance.

As of 30 September 2018 the Board of directors comprises 7 Board members: three Independent Directors, two Executive Directors, and two Non-Executive Directors.

Members	Title	No. of meetings attended in 2018	% Attendance in 2018
1. Mr. Warwick Smith	Chairman	4	100%

4.3 Selection of Directors and Senior Executives

Selection of Directors

The Nomination and Remuneration Committee reviewed and endorsed the Recruitment and Onboarding policies, and the Remuneration Principles and Structure Policy together with the ANZ Thai Salary ranges, the latter is reviewed and updated prior to the annual Performance and Remuneration Review cycle. These were approved by the resolution of the Board of Directors' Meeting No. 2/2015 on 17 March 2015. The recruitment and on-boarding policies involve hiring rigour procedures to ensure that qualified candidates are appropriately assessed based on suitable and relevant educational background and work experience. The Committee members will make their best efforts in selecting suitable candidates and submit proposed nominations to the Board of Directors for their review and approval. Other than the general qualifications, the key selection criteria involve the compliance of the candidates' qualifications with the applicable commercial banking laws such as the Public Limited Companies Act, the Financial Institutions Businesses Act, etc.

In every Annual General Meeting of Shareholders, one-third of the directors will retire by rotation. The Bank arranges for the shareholders to elect each director to replace the outgoing directors one by one. In voting for election of directors, each shareholder shall have votes equal to the number of shares held by him/her multiplied by the number of directors to be elected. Each shareholder may cast all of his/her votes to elect a person or persons as directors. In the case of election of persons as directors, he/she may split as many votes to any persons. The persons obtaining the highest number of votes in descending order shall be elected as directors according to the number of directors electable in that election. The retiring directors, in addition, may be re-elected.

Selection of Senior Executives

For senior executives from the level of Senior Vice President and above, who are functional heads and directly reporting to President and CEO, the selection criteria are focused on the relevant individual competencies and experience. In addition to the professional qualifications required by the role, it is also expected that the senior executives from the level of Senior Vice President and above, whatever the name of the position, have a good understanding of the ANZ business strategy and the required ANZ competencies for the role. More so, the candidates must

Units in THB

comply with the Fit and Proper requirements according to the applicable commercial banking laws such as the Public Limited Companies Act, the Financial Institutions Business Act, etc.

Remuneration

Monetary Payment

The remuneration of the Directors and Senior Executives from the level of Senior Vice President and above, who are functional heads and directly reporting to President and CEO are as follows:

The three Independent Directors received remuneration totalling to THB 4.8 million in 2018.

Name of Directors	Board Fee	Nomination & Remuneration Com Chairman Fee	Audit Com Chairman Fee	Total
Period Cover (2018)	Oct – Sep	Oct – Sep	Oct - Sep	
1. Mr. Bandid Nijathaworn	1,200,000	600,000		1,800,000
2. Mr. Padungdej Indralak	1,200,000		600,000	1,800,000
3. Mr. James Wise	1,200,000			1,200,000

The four remaining Non-Executive Directors and Executive Directors did not receive remuneration from the Bank in 2018, as prescribed by the ANZ Group policy:

The Honourable Warwick Leslie Smith
 Ms. Panadda Manoleehakul
 Mrs. Pratamaporn Svasti-Xuto
 Mrs. Carli Anne Renzi
 Chairman / Non-Executive Director
 Executive Director
 Non-Executive Director

For financial year 2018, the amount of remuneration paid to the 12 senior executives from the level of Senior Vice President and above totalled to THB 100.9 million.

Other remuneration

Under the new actuarial valuation, in scope senior executives from the level of Senior Vice President and above had expanded from seven local senior executives to include four non-local senior executives who are on local employment contract. The Bank has accrued for the statutory severance pay of these 11 senior executives as per actuarial calculations, in the amount of THB 40.3 million for 2018 and THB 5.9 million for 2017. As part of the refreshed actuarial valuation, assumptions on the salary plan and the anticipated retirement of some senior executives had materially increased the accrued pension liability.

5. AUDIT COMMITTEE REPORT

Audit Committee Report

The Audit Committee of ANZ Bank (Thai) Public Company Limited comprises three Independent Directors with Ms. Wiwan Chanakot (Head of Internal Audit) serving as secretary to the Audit Committee.

The Audit Committee Members are listed as below:

- 1) Mr. Padungdej Indralak Independent Director / Chair of Audit Committee
- 2) Dr. Bandid Nijathaworn Independent Director
- 3) Mr. James Joseph Wise Independent Director

The Audit Committee held 4 meetings in calendar year 2018. Minutes and recommendations from each Audit Committee meeting were presented to the Board of Directors to seek directives on issues and the Board may see fit.

The Audit Committee performed its duties in accordance with the scope of responsibilities as follows:

- Review and endorse the Annual Financial Statement and Independent Auditor's report as at 30 September 2017, the statements of comprehensive income, changes in equity and cash flows for the period ended 30 September 2017 and notes, comprising a summary of significant accounting policies and other explanatory information to ensure conformity with acceptable accounting principles and adequate disclosure before submitting to the Board of Directors' Meetings for approval;
- 2) Approved the Country Audit Plan for 2018 and review the activities, staffing and organisational structure of the internal audit function to ensure its independence. Also, followed up, queried, commented and provided guidance for corrective actions of issues, the result of the corrective actions and to acknowledge irregularities, operational mistakes, their causes and preventive;
- Acknowledged on Non-Compliance and Concerned Issues, followed up, queried, commented to ensure compliance with related regulations;
- Made recommendations to the Board of Directors regarding the nomination of the Bank's Independent Auditor and its remuneration;
- 5) Endorsed the Credit Review Plan for 2018;
- 6) Acknowledged the risk issues discussed at the Risk Management Committee.

The Audit Committee performed its duties as assigned by the Board of Directors. Its performance adhered to integrity, prudence, transparency, independence, and to the ultimate benefit of the Bank.

The Audit Committee consistently reviewed the Bank's financial reports, internal controls and also monitored performance of the Bank to ensure its compliance with all regulatory requirements. The Audit Committee is satisfied that the information contained therein is adequate, transparent and in line with good corporate governance practices.

Mr. Padungdej Indralak Chair of Audit Committee

6. NOMINATION AND REMUNERATION COMMITTEE REPORT

Nomination and Remuneration Committee Letter to the Shareholders

To the Shareholders

The Nomination and Remuneration Committee is comprised of three Directors. The Chairman of the Nomination and Remuneration Committee is an Independent Director and appointed by the Board of Directors. The Committee members are listed as below:

Dr. Bandid Nijathaworn	Chairman	
The Honourable Warwick Leslie Smith	Member	
Mr. Padungdej Indralak	Member	
	The Honourable Warwick Leslie Smith	The Honourable Warwick Leslie Smith Member

The Nomination and Remuneration Committee conducted four meetings in 2018.

The Nomination and Remuneration Committee has performed its duties as assigned by the Board of Directors. It has the responsibility of selecting and proposing names of qualified candidates for directorship in the Board of Directors, members of subcommittees whose authorities, duties and responsibilities are assigned directly by the Board of Directors, and senior executives/persons with management authority who are occupying roles in the country Leadership Team from the level of Senior Vice President and above. The Nomination and Remuneration Committee is responsible for proposing the remuneration and benefits provided for the Board of Directors and senior executives/persons with management authority who are occupying roles in the country Leadership Team from the level of Senior Vice President and above, for consideration by the Board of Directors.

The Nomination and Remuneration Committee has obtained approval from the Board of Directors for the policies, criteria and methodology, which provide the framework for the Committee in carrying out its duties. These are as follows:

- In the selection and nomination of the Board of Directors, members of subcommittees and senior executives/persons with management authority who are occupying roles in the country Leadership Team from the level of Senior Vice President and above, the Nomination and Remuneration Committee takes into consideration the relevant qualifications, knowledge, abilities, skills and experience of each individual as well as their leadership competency, vision and commitment to the organization, with the view that such qualities would be valuable and beneficial to the Bank's operations. In selecting members of the Board of Directors, the Nomination and Remuneration Committee also takes into consideration the appropriate size, structure, composition of the Board of Directors as well as individual suitability to the needs of the Bank. This is to ensure that good corporate governance is in place to support an effective and efficient management in order to comply with regulatory requirements and be in a position to address dynamic changes in the banking and business environment.
- In determining the remuneration and benefits provided for members of the Board of Directors and senior executives/persons with management authority who are occupying roles in the country Leadership Team from the level of Senior Vice President and above, the Nomination and Remuneration Committee takes into consideration that such remuneration and benefits are commensurate with the

duties and responsibilities assigned, the individual's performance, the market rate of the Thai banking industry, the Bank's overall performance, the current business environment and factors that may affect the Bank's operations or the economy as a whole.

The remuneration and benefit provided for Directors and senior executives in financial Year 2018 is presented in the Annual Report in the section entitled "Selection of Directors and Senior Executives". The Nomination and Remuneration Committee is of the opinion that such remuneration and benefits are appropriate and commensurate with the assigned duties and responsibilities and comply with the policy and criteria established by the Nomination and Remuneration Committee. The said remuneration and benefits have been considered and approved by the Board of Directors.

Independent Auditor's Report

To the Shareholders ANZ Bank (Thai) Public Company Limited

Opinion

I have audited the financial statements of ANZ Bank (Thai) Public Company Limited (the "Bank"), which comprise the statement of financial position as at 30 September 2018, the statements of profit or loss and other comprehensive income, changes in equity and cash flows for the year then ended; and notes, comprising a summary of significant accounting policies and other explanatory information.

In my opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Bank as at 30 September 2018 and the financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am independent of the Bank in accordance with the Code of Ethics for Professional Accountants issued by the Federation of Accounting Professions that is relevant to my audit of the financial statements, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

These notes form an integral part of financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorised for issue by the Board of Directors on 16 January 2019.

1 General information

ANZ Bank (Thai) Public Company Limited (the "Bank") was registered and incorporated as a juristic person in Thailand under the Public Limited Company Act B.E. 2535. The Bank's head office is located at 63 Athenee Tower, 8th Floor, Unit 801-806, Wireless Road, Lumpini, Pathumwan, Bangkok. The Bank does not have any other branches.

The Bank, incorporated as a commercial bank in Thailand, was given the banking license by The Ministry of Finance on 15 June 2015, whilst the Bank through its notification requirement under the banking license, has commenced its legal day-1 on Monday 29 June 2015.

The immediate and ultimate parent companies during the financial period are ANZ Funds Pty. Ltd. and ANZ Banking Group Limited. Both are incorporated in Australia.

2 Basis of preparation of the financial statements

(a) Statement of compliance

The financial statements are prepared in accordance with Thai Financial Reporting Standards (TFRS); guidelines promulgated by the Federation of Accounting Professions ("FAP"); and presented as prescribed by the Bank of Thailand ("BoT") Notification number Sor Nor Sor 21/2558, directive dated 4 December 2015, regarding "The preparation and announcement of the financial statements of commercial banks and holding companies which are the parent company of a group of companies offering financial services".

The FAP has issued new and revised TFRS effective for annual accounting periods beginning on or after 1 January 2017. The initial application of these new and revised TFRS has resulted in change in certain of the Bank's accounting policies. These changes have no material effect on the financial statements.

In addition to the above new and revised TFRS, the FAP has issued a number of new and revised TFRS which are not yet effective for current period. The Bank has not early adopted these standards in preparing these financial statements. Those new and revised TFRS that are relevant to the Bank operations are disclosed in note 36.

(b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for the following items, which are measured on an alternative basis on each reporting date.

Items	Measurement bases
Derivatives	Fair value
Trading securities	Fair value
Available-for-sale securities	Fair value
Loans with heading instruments	Fair value
Net defined benefit liability	Present value of the defined benefit obligation as explained in Note 3 (j)

(c) Functional and presentation currency

The financial statements are prepared and presented in Thai Baht, which is the Bank's functional currency. All financial information presented in Thai Baht and has been rounded in the notes to the financial statements to the nearest thousand unless otherwise stated.

(d) Use of judgements and estimates

The preparation of financial statements in conformity with TFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

Assumptions and estimation uncertainties

Information about assumption and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the year ending 30 September 2018 is included in the following notes:

- Note 5 Fair value of assets and liabilities
- Note 8 Derivatives
- Note 11 Allowance for doubtful accounts
- Note 13 Recognition of deferred tax assets : availability of future taxable profit against which tax losses carried forward can be used

Measurement of fair values

A number of the Bank's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. Details of the methods and assumptions over the measurement of fair values are provided in note 5.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

(a) Foreign currencies

Foreign currency transactions

Transactions in foreign currencies are translated to the functional currency at exchange rates at the dates of the transactions.

Monetary assets and liabilities denominated in foreign currencies are translated to the functional currency at the exchange rate at the reporting date. Foreign exchange difference arising from translation is recognised in profit or loss.

(b) Cash

Cash comprises cash in hand and cash in collection.

(c) Investments

Investments in debt securities

Debt securities held for trading are classified as trading securities and stated at fair value, with any resultant gain or loss recognised in profit or loss.

Debt securities, other than those securities held for trading are classified as available-for-sale investments. Available-for-sale investments are, subsequent to initial recognition, stated at fair value, and changes therein, other than impairment losses and foreign currency differences on available-for-sale monetary items, are recognised directly in equity. Impairment losses and foreign exchange differences are recognised in profit or loss. When these investments are derecognised, the cumulative gain or loss previously recognised directly in equity is recognised in profit or loss. Where these investments are interest-bearing, interest calculated using the effective interest method is recognised in profit or loss.

The fair value of investments in debt securities traded in Thai established market are calculated based on the Thai Bond Market Association yield curve at the reporting date, or at the latest trading date prior to the reporting date if there is no trading on that date.

Initial recognition

Purchases and sales of investment are initially recognised on trade date which is the date that the Bank commits to purchase or sell the investments.

Disposal of investments

On disposal of an investment, the difference between net disposal proceeds and the carrying amount together with the associated cumulative gain or loss that was reported in equity is recognised in profit or loss.

If the Bank disposes part of its holding of a particular investment, the deemed cost of the part sold is determined using the weighted average method applied to the carrying value of the total holding of the investment.

(d) Loans to customers

Loans to customers are stated at the outstanding principal amount, except for Bank overdrafts which include accrued interest receivable. Bill purchased at a discount is stated at the face value of the bills, net of deferred revenue.

(e) Allowance for doubtful accounts

The allowance for doubtful accounts is based on management's review and assessment of the status of individual debtors and the Bank's classification of loans as prescribed by the BoT's regulations. Such assessment takes into consideration various factors including the risk involved, value of the collateral and the current status of individual debtors.

The BoT has guidelines for establishing a minimum level of allowance for doubtful accounts, which is primarily determined by applying specified percentages to the different classifications of financing in conjunction with the consideration of collateral valuation. Financing classification is based principally on the period that a financing is past due. The Bank has set up the minimum allowance for doubtful accounts according to the BoT regulations.

Based on the BoT's regulations, the Bank has classified its loan portfolios into six categories, primarily based on the non-accrual period. For loans classified as pass and special-mention, the calculation of allowances for doubtful accounts is based on the regulatory minimum percentage requirement, taking into consideration the collateral value, where the collateral type and date of the latest appraisal are qualifying factors. For loans classified as sub-standard, doubtful and doubtful of loss, the allowance on these accounts will be set at 100 percent of the difference between the outstanding book value of the debt and the present value of future cash flows expected to be received, or the expected proceeds from the disposal of collateral, in accordance with the BoT's regulations.

The allowance for doubtful accounts established during the year is charged as an expense in profit or loss.

Bad debts written-off are recorded as charges to the allowance for doubtful accounts. All bad debts recovered are recognised as revenue in profit or loss from operations.

(f) Leasehold building improvements and equipment

Recognition and measurement

Owned assets

Leasehold building improvements and equipment are measured at cost less accumulated depreciation and impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

When parts of an item of leasehold building improvements and equipment have different useful lives, they are accounted for as separate items (major components) of leasehold building improvements and equipment.

Any gains and losses on disposal of an item of leasehold building improvements and equipment are determined by comparing the proceeds from disposal with the carrying amount of leasehold building improvements and equipment, and are recognised in profit or loss.

Subsequent costs

The cost of replacing a part of an item of leasehold building improvements and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Bank, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of leasehold building improvements and equipment are recognised in profit or loss as incurred.

Depreciation

Depreciation is calculated based on the depreciable amount, which is the cost of an asset, or other amount substituted for cost, less its residual value.

Depreciation is charged to profit or loss on a straight-line basis over the estimated useful lives of each component of an item of leasehold building improvements and equipment. The estimated useful lives are as follows:

Leasehold building improvements	10	years (or remaining of lease contract)
Furniture, fixtures and office equipment	5	years
Computer equipment	3	years
Vehicles	5	years

No depreciation is provided on assets under construction.

Depreciation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(g) Intangible assets

Software licenses

Software licenses that are acquired by the Bank and have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure is recognised in profit or loss as incurred.

Amortisation

Amortisation is recognised in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, from the date that they are available for use, since this most closely reflects the expected pattern of consumption of the future economic benefits embodied in the asset. The estimated useful life for the software licenses is 3 years.

Amortisation methods, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

(h) Impairment

The carrying amounts of the Bank's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. The impairment loss is recognised in profit or loss unless it reverses a previous revaluation credited to equity, in which case it is charged to equity.

When a decline in the fair value of an available-for-sale financial asset has been recognised directly in equity and there is objective evidence that the value of the asset is impaired, the cumulative loss that had been recognised directly in equity is recognised in profit or loss even though the financial asset has not been derecognised. The amount of the cumulative loss that is recognised in profit or loss is the difference between the acquisition cost and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss.

Calculation of recoverable amount

The recoverable amount of available-for-sale financial assets is calculated by reference to the fair value.

The recoverable amount of a non-financial asset is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Reversals of impairment

An impairment loss in respect of a financial asset is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised in profit or loss. For available-for-sale financial assets that are debt securities, the reversal is recognised in profit or loss.

Impairment losses recognised in prior periods in respect of non-financial assets are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

(i) Financial instruments

Derivatives

Derivative financial instruments are used to manage exposure to interest and foreign exchange rates and arising from operational, financing and investment activities. Derivative financial instruments that do not qualify for hedge accounting are accounted for as trading instruments.

Derivatives are recognised initially at fair value from the date a derivative contract is entered into (trade date) and are subsequently remeasured at their fair value. The gain or loss on remeasurement is recognised immediately in profit or loss. However, where derivatives qualify for hedge accounting, recognition of any resultant gain or loss on remeasurement depends on the nature of the item being hedged.

All derivatives are carried as assets when fair value is positive as "Derivatives assets" and as liabilities when fair value is negative as "Derivatives liabilities" in the statements of financial position.

The fair value of forward exchange agreements is their market price at the reporting date, being the present value of the quoted forward price.

The fair value of interest rate swaps is calculated by discounting future cash flows based on the terms and maturity of each contract and using market interest rates for a similar instrument at the reporting date.

Hedging

Fair value hedge

Where a derivative hedges the changes in fair value of a recognised asset, liability or unrecognised commitment, an identified portion of such asset, liability or commitment, any gain or loss on remeasuring the fair value of the hedging instrument is recognised in profit or loss. The hedged item is also stated at fair value in respect of the risk being hedged, with any gain or loss being recognised in profit or loss.

Discontinuing hedge accounting

Hedge accounting is discontinued prospectively when the hedging instrument expires or is sold, terminated or exercised, or no longer qualifies for hedge accounting. Any cumulative gain or loss on hedging instrument is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is recognised in profit or loss immediately.

(j) Employee benefits

Defined contribution plans

Obligations for contributions to defined contribution plans are expensed in profit or loss during the period as the related service is provided.

Defined benefit plans

The Bank's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount.

The calculation of defined benefit obligations is performed by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Bank, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any application minimum funding requirements.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in OCI. The Bank determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Bank recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Bank has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(k) Share-based payments

The grant-date fair value of equity-settled share-based payment awards granted to employees is generally recognised as an expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognised as an expense is adjusted to reflect the number of awards for which the related service and non-market performance conditions are expected to be met, such that the amount ultimately recognised is based on the number of awards that meet the related service and non-market performance conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

The fair value of the amount payable to employees in respect of share appreciation rights, which are settled in cash, is recognised as an expense with a corresponding increase in liabilities, over the period that the employees become unconditionally entitled to payment. The liability is remeasured at each reporting date and at settlement date. Any changes in the fair value of the liability are recognised as personnel expenses in profit or loss.

(l) Provisions

A provision is recognised if, as a result of a past event, the Bank has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(m) Recognition of income

Interest income on loans to customers is recognised on an accrual basis, except for interest on loans to customers classified as overdue in excess of three months where, regardless of whether the loans to customers are covered by collateral, the interest is recognised on a cash basis in accordance with the BoT's regulations. The accrued interest income from loans to customers is reversed against interest income when interest income on loans overdue for more than three months or being downgraded to classified assets.

Interest income on interbank and money market items and investments is recognised on an accrual basis. Discounts received on purchase of debt securities are recognised on effective interest method over the period to maturity.

Fees and service income is recognised on an accrual basis.

(n) Recognition of expense

Interest expense is recognised on an accrual basis.

(o) Income tax

Income tax expense for the year comprises current and deferred tax. Current and deferred tax are recognised in profit or loss except to the extent that they relate to items recognised directly in equity or in other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using the tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss; and differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Bank expect, at the end of the reporting year, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

In determining the amount of current and deferred tax, the Bank takes into account the impact of uncertain tax positions and whether additional taxes and interest may be due. The Bank believes that its accruals for tax liabilities are adequate for all open tax years based on its assessment of many factors, including interpretations of tax law and prior experience. This assessment relies on estimates and assumptions and may involve a series of judgements about future events. New information may become available that causes the Bank to change its judgment regarding the adequacy of existing tax liabilities; such changes to tax liabilities will impact tax expense in the year that such a determination is made.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognise a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(p) Earnings per share

The Bank presents basic earnings per share for its ordinary shares which is calculated by dividing the profit attributable to ordinary shareholders of the Bank by the number of ordinary shares issued during the year.

(q) Offsetting

Financial assets and liabilities are offset and the net amount is reported in the statements of financial position when the Bank has a legal, enforceable right to set off the recognised amounts and the transactions are intended to be settled on a net basis.

4 Financial risk management

Risk management policies

Financial instruments are fundamental to the Bank's business, constituting the core element of its operations. Accordingly, the risks associated with financial instruments are a significant component of the risks for monitoring and managing. The Board of Directors is responsible for Bank strategies and policies relating to risk management that are adopted from ANZ Banking Group Limited and compliance with regulatory requirement.

The important risks for the Bank are operational risk, credit risk, market risk and liquidity risk that are further described below:

4.1 Operational risk

Operational risk is defined as the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk, and the risk of reputational loss or damage arising from inadequate or failed internal processes, people and systems, but excludes strategic risk.

The Board of Directors has approved the ANZ Operational Risk Measurement and Management Policy. This policy is an addendum to the ANZ Global Operational Risk Measurement and Management Policy under ANZ Operational Risk Framework and outlines specific Bank of Thailand policy requirements not specifically addressed in the ANZ Operational Risk Framework. The Risk Management Committee assists the Board in the effective discharge of its responsibilities for operational risk management and for the management of the relative compliance obligations. The committee also assists the Board by providing an objective oversight of the implementation by management the Bank risk management framework and its related operation and by enabling an institution-wide view of current and future risk position relative to its risk appetite and capital strength.

4.2 Credit risk

Credit risk is the risk of financial loss from counterparties being unable to fulfil their contractual loan or other credit obligations. The credit risks arise not only from traditional lending to customers, but also from inter-bank, treasury, and international trade.

The Bank has a comprehensive framework to manage Credit Risk. The framework is top down, being defined by credit principles and policies. Credit policies, requirements and procedures cover all aspects of the credit life cycle such as transaction structuring, risk grading, initial approval, ongoing management and problem debt management. The effectiveness of the credit risk management framework is assessed through various compliance and monitoring processes. These, together with portfolio selection, define and guide the credit process, organisation and staff.

Responsibility for the strategies and policies relating to the management of credit risk lies with the Board of Directors. Responsibility for day to day management of credit risk is delegated by the Board of Directors to the Bank Risk Management Committee ("RMC").

4.3 Market risk

Market risk is the risk to the Bank's earnings arising from changes in market rates, prices and volatilities lead to a decline in the value of assets and liabilities, including financial derivatives. Market risk is generated through both trading and banking book activities.

The Bank conducts trading operations in interest rates, foreign exchange, and government securities.

The Bank has a detailed risk management and control framework to support its trading and banking book activities. The framework incorporates a risk measurement approach to quantify the magnitude of market risk within trading and banking book portfolios. This approach and related analysis identifies the range of possible outcomes that can be expected over a given period of time, establishes the relative likelihood of those outcomes and allocates an appropriate amount of capital to support these activities.

Responsibility for the strategies and policies and comprehensive limit relating to the management of market risk lies with the Board of Directors. Responsibility for day to day management of both market risk and compliance with market risk policy is delegated by the Board of Directors to the RMC and the Assets & Liabilities Management Committee.

Market risk management is supported by a comprehensive limit and policy framework to control the amount of risk that the Bank will accept. Market risk limits are allocated to trading book and banking book and are reported and monitored by Market Risk on a daily basis. The detailed limit framework allocates individual limits to manage and control asset classes (e.g. interest rates, currency), risk factors and profit and loss limits (to monitor and manage the performance of the trading portfolio).

(a) Interest rate risk

Interest rate risk is the potential loss arising from the change in the value of a financial instrument due to changes in market interest rates or their implied volatilities.

Significant financial assets and liabilities classified by types of interest rate as at 30 September 2018 and 2017 are as follows:

		201	8

(b) Currency exchange rate risk

Currency risk is the potential loss arising from the decline in the value of a financial instrument due to changes in foreign exchange rates or their implied volatilities.

As at 30 September 2018 and 2017, net open position assets (liabilities) denominated in various currencies, are as follows:

	2018	2017	
	(in thousand US Dollar)		
Net foreign currency exposure			
USD	4,135	(8,599)	
AUD (*)	(1,575)	(281)	
EUR ^(*)	(88)	(20)	
SGD 🖱	64	108	
Others "	72	6	
(*) Balance is stated in USD equivalent.			

4.4 Liquidity risk

Liquidity Risk is the risk that the Bank is unable to meet its payment obligations as they fall due, including repaying depositors or maturing wholesale debt, or that the Bank has insufficient capacity to fund increases in assets. The timing mismatch of cash flows and the related liquidity risk is inherent in all banking operations and is closely monitored.

The Bank's liquidity risk is governed by a set of principles which are approved by the Board of Directors. In response to the impact of the global financial crisis, the framework has been reviewed and updated regularly.

The remaining periods to maturity of significant financial assets and financial liabilities as at 30 September 2018 and 2017 based on contractual maturity are as follows:

5 Fair value of assets and liabilities

The Bank has an established control framework with respect to the measurement of fair values. This includes a valuation team in Group level that has overall responsibility for overseeing all significant fair value measurements, including level 3 fair values, and reports through to the Chief Financial Officer.

The valuation team in Group level regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the valuation team assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of TFRS, including the level in the fair value hierarchy in which such valuations should be classified.

Significant valuation issues are reported to the Audit Committee.

When measuring the fair value of an asset or a liability, the Bank uses market observable data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or liability might be categorised in different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Bank recognised transfers between levels of the fair value hierarchy at the end of the reporting year during which the change has occurred. There were no transfers between Level 1 to Level 2 of the fair value hierarchy during the year ended 30 September 2018.

5.1 Financial instruments carried at fair value

The fair values of financial instruments carried at fair value in the statement of financial position are as follows:

	Fair value					
-	Level 1	Level 2	Level 3	Total		
		(in thousa	ind Baht)			
30 September 2018

- Foreign exchange rate	_	305,813	_	305,813		
- Interest rate	-	356,609	_	356,609		
		550,007	_	550,007		

The Bank determines Level 2 fair values for debt securities using quoted market prices from Thai BMA for identical or similar instruments in inactive markets or other inputs that are observable market data.

Level 2 fair values for simple over-the-counter derivative financial instruments are based on broker quotes. Fair values reflect the credit risk of the instrument and include adjustments to take account of the credit risk of the Bank and counterparty when appropriate.

Level 3 fair values for loans to customers is estimated using discounted cash flow analysis and using risk-adjusted current interest rates.

5.2 Financial instruments not carried at fair value

Fair values hierarchy of financial instruments which are not measured at fair value and for which there is a significant difference with carrying amount as of 30 September 2018 and 2017 are as follows:

	Carrying amount	Fair value Level 3
	(in thouse	und Baht)
30 September 2018	·	,
Financial assets		
Loans to customers and accrued interest receivable	12,726,680	12,714,878
Financial liabilities		
Deposits	4,264,610	4,264,718
	Carrying amount <i>(in thouse</i>	Fair value Level 3 and Baht)
30 September 2017	·	·
Financial assets		
Loans to customers and accrued interest receivable	10,722,379	10,723,532
Financial liabilities		
Deposits	3,179,749	3,181,597

The following methods and assumptions were used by the Bank in estimating the fair value of financial instruments as disclosed herein.

Interbank and money market items (assets and liabilities) and Deposits:	Fair value of Interbank and money market items calculated based on present value of estimated cash flows, using the current interest rate in the money market.
Derivatives:	Fair value of the derivative assets and liabilities as described in Note 3 (i).
Investments:	Fair value of investments as described in Note 3 (c).
Loans to customers and accrued interest receivables:	Fair value of fixed rate loans to customers that have remaining maturity within 1 year of the reporting date approximates the carrying value at the reporting date. Fair value for fixed interest loans to customers which the remaining maturity more than 1 year is estimated using discounted cash flow analysis and using interest rates currently being offered for loans to customers with similar terms to borrowers of similar credit quality.
Liabilities payable on demand:	The carrying amount of liabilities payable on demand approximates fair value.

6 Maintenance of capital fund

The ratios of capital to assets (Capital Adequacy Ratio) as of 30 September 2018 and 2017 were calculated from the financial statements of the Bank. The Bank has chosen to adopt the Standardised Approach (SA) for credit risk and market risk weight assets calculation, and Basic Indicator Approach (BIA) for operational risk weight assets calculation which is consistent with BoT requirements.

According to Bank of Thailand notification number For Nor Sor (23) Wor 263/2556 dated 22 February 2013, the Bank is required to disclose capital after deducting capital add-on arising from Single Lending Limit, effective at the end of January 2015. As at 30 September 2018 and 2017, the Bank has no add-on arising from Single Lending Limit.

In accordance with the Bank of Thailand Notification No. Sor Nor Sor 4/2556 dated 2 May 2013, Re: "Information Disclosure Regarding Capital Fund Maintenance for Commercial Banks", the Bank intends to disclose Capital Maintenance information as of 30 September 2018 within 4 months after the period end date, as indicated in the notification, through the Bank's website www.anz.com/thailand/en/auxiliary/resource-centre/

Capital management

The Bank's capital management approach is driven by its desire to maintain a strong capital base to support the development of its business, to meet regulatory capital requirements.

35 Basic earnings per share

The calculations of basic earnings per share for the year ended 30 September 2018 and 2017 were based on the profit for the year attributable to equity holders of the Bank and the number of ordinary shares outstanding during the year as follows:

For the year ended 30 September	•	2017 and Baht / d shares)
Profit for the year attributable to shareholders of the Bank (basic) The number of ordinary shares outstanding	<u>169,594</u> 2,000,000	<u>24,514</u> <u>2,000,000</u>
Basic earnings per share (in Baht)	0.08	0.01

36 Thai Financial Reporting Standards (TFRS) not yet adopted

A number of new and revised TFRS which relevant to the Bank operations are expected to have significant impact on the financial statements on the date of initial application. Those TFRS become effective for annual financial reporting periods beginning on or after 1 January of the following years.

TFRS	Торіс	Effective
TFRS 7 [.]	Financial Instruments: Disclosures	2020
TFRS 9 [*]	Financial Instruments	2020
TFRS 15	Revenue from Contracts with Customers	2019
TFRS 16	Leases	2020
TAS 32*	Financial Instruments: Presentation	2020
TFRIC 16	Hedges of a Net Investment in a Foreign Operation	2020
TFRIC 19*	Extinguishing Financial Liabilities with Equity	2020
	Instruments	

* TFRS - Financial instruments standards

(a) TFRS 15 Revenue from Contracts with Customers

TFRS 15 establishes a comprehensive framework for determining whether, how much and when revenue is recognised. Revenue should be recognised when (or as) an entity transfers control over goods or services to a customer, measured at the amount to which the entity expects to be entitled.

Management is presently considering the potential impact of adopting and initially applying TFRS 15 on the financial statements.

(b) TFRS - Financial instruments standards

These TFRS establish requirements related to definition, recognition, measurement, impairment and derecognition of financial assets and financial liabilities, including accounting for derivatives and hedge accounting.

Management is presently considering the potential impact of adopting and initially applying TFRS – Financial instruments standards on the financial statements.

(c) TFRS 16 Leases

TFRS 16 introduces a single lessee accounting model for lessees. A lessee recognizes a right-of-use asset representing its right to use the underlying asset and a lease liability representing its obligation to make lease payments. There are recognition exemptions for short-term leases and leases of low-value items. Lessor accounting remains similar to the current standard, i.e. lessors continue to classify leases as finance or operating leases.

Management is presently considering the potential impact of adopting and initially applying TFRS 16 on the financial statements.
