

Investment Option Summary

ANZ Smart Choice Super - Platinum International

30 June 2020

Description

The fund is suitable for investors seeking exposure to international shares and who are prepared to accept higher variability of returns.

Investment return objective

The fund aims to provide capital growth over the long term through searching out undervalued listed (and unlisted) investments around the world.

Investment strategy

The portfolio will ideally consist of 100–200 securities that Platinum believes to be undervalued by the market. Cash may be held when undervalued securities cannot be found. Platinum may short sell securities that it considers overvalued. The portfolio will typically have 50% or more net equity exposure. Derivatives may be used for risk management purposes and to take opportunities to increase returns. The underlying value of Derivatives may not exceed 100% of the Net Asset Value (NAV) of the fund and the underlying value of long stock positions and Derivatives will not exceed 150% of the NAV of the fund. The fund's currency exposures are actively managed.
