

Investment Option Summary

ANZ Smart Choice Super - RARE Infrastructure Value

30 September 2018

Description

The fund is suitable for investors seeking regular and stable income and capital growth from a portfolio of global listed infrastructure securities. The fund is suitable for investors who are prepared to accept higher variability of returns.

Investment return objective

The fund aims to provide investors with regular and stable income, comprised of dividends, distributions and interest plus capital growth from a portfolio of global infrastructure securities. The fund targets an absolute annual return of 5.5% above the OECD G7 Inflation rate.

Investment strategy

RARE intends to invest the assets of the fund in securities which offer positive absolute returns, rather than selecting securities because they are included in a particular industry standard index. The portfolio is comprised of 30–60 stocks drawn from an investment universe of over 200 stocks under research by our team. The assets of the companies in which we invest are predominantly located in developed markets, but we can invest up to 25% of the portfolio in infrastructure securities in developing markets.

Minimum time horizon

5 years

Inception date

25 May 2015

Fund Code: MMF2170AU

■ Cash 1.07%

Standard Risk Measure

The Standard Risk Measure (SRM) is based on industry guidance to allow investors to compare funds that are expected to deliver a similar number of negative annual returns over any 20 year period. The SRM for this fund is shown below:

[^] Listed Real Assets will include allocations to global listed property and listed infrastructure securities.

Returns quoted use the unit price which is calculated using the net asset values for the relevant month end. Please note that all returns are after the deduction of investment management fees.
