

# Investment Option Summary

## ANZ Smart Choice Super - Schroder Fixed Income

30 June 2025

### Description

This investment option is suitable for investors seeking stable absolute returns over time through exposure to a range of domestic and international fixed income assets and who are prepared to accept some variability of returns.

### Investment return objective

This investment option aims to obtain exposure to a diversified range of domestic and international fixed income securities with the principal aim of outperforming the Bloomberg AusBond Composite 0+Yr Index over the medium term.

### Investment strategy

The Schroder Fixed Income Core-Plus Strategy is an actively managed, diversified strategy that invests in a range of domestic and international fixed income assets with the objective of outperforming the Bloomberg AusBond Composite 0+Yr Index. While the bulk of returns are expected to come from income generated by Australian investment grade assets, the Strategy seeks to enhance returns and manage risk by assessing the broad range of fixed income investment opportunities through a robust asset allocation framework and accessing these opportunities through Schroders' global network. Investments within the portfolio are actively managed with the aim of ensuring we hold the right assets and securities at the right time to maximise returns while maintaining a low risk profile. The targeted result is a defensive strategy which is broadly diversified with low correlation to equity markets.

### Minimum time horizon

3 years

### Inception date

25 May 2015

Fund Code: MMF2172AU
