

Investment Option Summary

ANZ Smart Choice Super - Schroder Fixed Interest

30 September 2018

Description

The fund is suitable for investors seeking stable absolute returns over time through exposure to a range of domestic and international fixed income assets and who are prepared to accept some variability of returns.

Investment return objective

The fund aims to obtain exposure to a diversified range of domestic and international fixed income securities with the principal aim of outperforming the UBS Composite Bond Index over the medium term.

Investment strategy

Schroders believes an active 'Core Plus' approach can deliver stable absolute returns to investors over time. Schroders aim to deliver the return objective for the lowest achievable risk. This is critical as they judge themselves not only on meeting the stated fund objectives but also on a 'reward-for-risk' basis. Schroders also put a lot of emphasis on the management of tail risk which is critical especially in the current credit environment.

Minimum time horizon

3 years

Inception date

25 May 2015

Fund Code: MMF2172AU

Standard Risk Measure

The Standard Risk Measure (SRM) is based on industry guidance to allow investors to compare funds that are expected to deliver a similar number of negative annual returns over any 20 year period. The SRM for this fund is shown below:

Returns quoted use the unit price which is calculated using the net asset values for the relevant month end. Please note that all returns are after the deduction of investment management fees.
