

Investment Option Summary

ANZ Smart Choice Super - UBS Defensive

30 June 2020

Description

The fund is suitable for investors seeking exposure to a diversified portfolio of income assets through a limited investment in growth and alternative assets and who are prepared to accept some variability of returns.

Investment return objective

The fund aims to provide a total return (after management costs) in excess of its Neutral Allocation (measured by relevant market indices), over rolling five year periods over a full investment cycle (usually three to five years), this Neutral Allocation displays performance characteristics of CPI plus 4.5-6.5% p.a. on average.

Investment strategy

The fund may maintain its asset allocation anywhere within the allowable range to differing asset classes consistent with the risk and return objectives indicated above. The fund normally gains its asset sector exposure by investing in other relevant UBS managed funds and third-party funds either directly or indirectly through a range of instruments. The fund may also invest directly in securities. Derivatives may also be used to gain or hedge exposure to securities, markets, asset classes and currencies. Derivative holdings may result in notional exposures that are greater than the underlying value of assets in the fund. The long-term neutral (or average) exposure to traditional growth and income assets is expected to be around 30% and 60% respectively of the total portfolio. The remaining 10% is expected to be allocated on average to various alternative asset strategies which are likely to provide a combination of both income and growth potential.

Minimum time horizon

3 years

Inception date

25 May 2015

Fund Code: MMF2178AU

*ANZ Smart Choice Pension investment options are only offered through ANZ Smart Choice Super and Pension. Investment Earnings tax does not apply to Pension investment options and returns will differ from the equivalent Super investment options.

Please note that this percentage will vary over time as the investment option becomes more conservative.

^ Listed Real Assets will include allocations to global listed property and listed infrastructure securities.
