

ANZ OneAnswer Personal Super – OnePath Income Plus fund update*

APRIL 2015

On 23 April 2015 there was a large increase of approximately 172% in the unit price for the suspended OnePath Income Plus fund ('the Fund').

Why has this unit price increase occurred?

This increase follows a change in the unit pricing policy for the Fund. The policy has recently been reviewed with regard to the way tax is applied. The result was an increase in the value of the Fund and subsequently the unit price.

What does this mean?

Members invested in the Fund via ANZ OneAnswer Personal Super will see the value of their investment in the Fund increase substantially on the day of the unit price increase.

For example, if a member holds 1,000 units in the Fund via ANZ OneAnswer Personal Super (Entry Fee) then the value of their investment will increase from \$1,454.50 to \$3,962.80 (based on the unit price rising from \$1.45450 to \$3.96280).

Why is this only relevant to ANZ OneAnswer Personal Super members?

Tax is payable by the Fund on investment earnings in the accumulation phase of super. As a result, the unit price increase is only relevant to superannuation members.

What do you need to do?

Members invested in the Fund via ANZ OneAnswer Personal Super do not need to do anything. The unit price of the Fund increased on 23 April 2015. This increase will be reflected in the value of members' investments and on the next periodic statement received.
