An International Transaction is any transaction, credit or refund or reversal in respect of a transaction:

- In a currency other than Australian currency; or

- Which is considered by Visa to require conversion into Australian currency (for example, where the transaction, credit, refund or reversal is submitted on behalf of a merchant to a financial institution by an intermediary that is outside of Australia).

For an International Transaction using an ATM, the Overseas Transaction Fee is calculated on the value of the transaction and ATM operator fee that you accept when you proceed with the transaction at the ATM.
