

BUY/SELL SPREADS

EFFECTIVE FROM 5 DECEMBER 2025

Transaction costs, including brokerage, stamp duty, settlement and other costs, are incurred by a fund when buying and selling fund assets. Transaction costs are recovered by what is called a 'Buy-sell spread' (the difference between the issue unit price and withdrawal unit price), which is based on an estimate of those costs.

Buy-sell spreads are designed to protect investors by ensuring that the expense of buying and selling assets is borne by those who invest in or withdraw from a fund.

Depending on the fund, the current 'Buy' or 'Sell' spread varies from 0% to 0.18%. This amount is an additional cost to you reflected in the unit price at the time you apply for units or when you withdraw from the fund. It is not charged separately. For example, for every \$1,000 that you invest in ANZ Growth the 'Buy' spread is currently 0.10% (or \$1.00), the 'Sell' spread is currently 0.10% (or \$1.00), and the total combined Buy and Sell spread is 0.20% (or \$2.00). This amount is reflected in the 'Buy' (issue) price at the time of your investment in the fund.

As transaction costs may change, the Buy-sell spread may also change without prior notice.
