

## **ANZ ONEANSWER PERSONAL SUPER AND PENSIONS**

**(CLOSED TO NEW MEMBERS)**

---

This is a summary of the key features of ANZ OneAnswer Personal Super, ANZ OneAnswer Allocated Pension and ANZ OneAnswer Term Allocated Pension (ANZ OneAnswer Pensions).

For more details see the disclosure document provided to you when you commenced your ANZ OneAnswer account and any updates provided since this time.

If you don't have these documents or need assistance call us on 1800 932 015.

### **PERSONAL SUPER**

ANZ OneAnswer Personal Super is a personal superannuation account that helps you to accumulate and grow your super savings in a tax-effective way. It offers a range of investment options managed by specialist investment managers.

### **ALLOCATED PENSION**

ANZ OneAnswer Allocated Pension offers a retirement pension account as well as a transition to retirement (TTR) pension account. Your pension account will provide a regular income stream until it is at zero balance. You can choose and also change at any time, the payment amount and payment frequency.

### **TERM ALLOCATED PENSION**

ANZ OneAnswer Term Allocated Pension is a 'complying' pension for the purposes of superannuation, Social Security and Veterans' Affairs laws. Term Allocated Pensions qualified for a 50% assets test exemption. While the account cannot be redeemed by you or any reversionary pensioner you have nominated, any remaining account balance is payable to upon your death (or your reversionary pensioner's death, whichever occurs first).

### **INVESTMENT OPTIONS**

ANZ OneAnswer Personal Super and Pensions offers access to a wide range of investment options, asset managers and asset classes. There are over 80 carefully selected diversified and single sector investment options to choose from including a range of Term Deposits options.

As your investment objectives change, you can change your investment by switching between investment options.

### **INSURANCE COVER**

While some members currently have Death and Total & Permanent Disability (TPD) group insurance cover within ANZ OneAnswer Personal Super, members can no longer apply for new cover.

Members who hold insurance cover via a OneCare Super policy can pay for their premiums directly from their ANZ OneAnswer Personal Super account. See the OneCare Super PDS for more information.

### **OTHER KEY FEATURES**

**Auto-rebalancing facility** – Automatically rebalance your account to your nominated investment profile.

**Dollar cost averaging facility** – Regularly switches account balances from one investment option to another at a set dollar amount and frequency.

**Online access** – Track and manage your account online via Investor Access and anz.com

### **FEES AND CHARGES**

Members will be invested in an Entry Fee, Nil Entry Fee, Deferred Entry Fee or //Select fee option.

#### **Entry Fee option**

An Entry Fee is charged as a percentage of each contribution. Your financial adviser then receives commission from this fee, and may agree to rebate some or all of this commission back to your account, which effectively reduces the Entry Fee paid.

## **Nil Entry Fee and Deferred Entry Fee options**

While no Entry Fee is charged on contributions, the Ongoing Fees charged on each investment option are higher than those charged within the Entry Fee option.

We pay your financial adviser a commission upfront as a percentage of each contribution. They may agree to rebate some or all of this commission back to your account.

### **//Select option**

No Entry Fee is charged on contributions and no commission is paid to advisers. Members receive a Select fee rebate, reducing the effective Ongoing Fees charged on each investment option.

### **Adviser trail commission**

In addition to the initial commission paid to your financial adviser, your adviser also receives an ongoing trail commission as a percentage of your account balance.

### **Investment Fees**

Investment Fees are deducted from the assets of each investment fund and included in the unit price. The Investment Fees (Ongoing Fee) includes the cost of managing the Fund and the underlying fund manager's Investment Management Fee.

### **Ongoing fee rebate**

An ongoing fee rebate applies for larger account balances.

### **Member Fee**

A Member Fee or Account Keeping Fee may apply to smaller account balances.

### **Administration Fee (Other)**

Levies and expense recoveries are deducted from the assets of each investment option annually and included in the unit price.

### **Indirect Cost Ratio**

Indirect costs are deducted from the underlying assets of each investment option. Although these costs are not charged as a specific fee they reduce the return on your investment. These costs include any performance fees charged by the underlying fund manager, and also their transaction costs not recovered by the buy-sell spread, such as brokerage costs, custody fees, stamp duty and bid/offer spreads.

### **Buy-sell spreads**

When investing into, or withdrawing from an investment option, you may incur a buy-sell spread cost as the difference between 'buy' and 'sell' unit prices. This buy-sell spread is used to allocate buy and sell transaction costs to members who are transacting, rather than members retaining their funds within the investment option.

## **Withdrawal Fee**

### **(Nil Entry Fee and Deferred Entry Fee options only)**

A Withdrawal Fee applies as a percentage of amounts withdrawn within three years of its contribution.

### **Other fees and costs**

You may choose to have an Adviser Service Fee for personal advice deducted from your account, as agreed between you and your financial adviser.

Other administration fees, such as dishonour fees, may apply. Call us if you would like further information on the fees and costs specific to your account.
